

Is my facility air always clean?

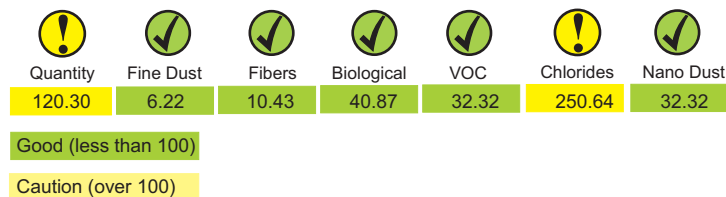

Monitor Air Contamination Continuously, 24/7

Dustcheck® Facility gives you:

- Peace of mind.
- Increased employee moral.
- Lower insurance premiums.
- Protection against law suits.

DustCheck® monitors air purity in facilities worldwide, including office buildings, manufacturing plants, data centers, hospitals, food processing plants and cleanrooms. DustCheck® has provided crucial evidence in many cases involving insurance claims and litigation.

Comprehensive, easy to understand, reports:

How DustCheck® works:

DustCheck® electrostatic air samplers are discreetly mounted at various locations throughout your facility. Samplers can monitor air purity for at least two years and be sent for laboratory analysis whenever you want an air quality update.

Test results, including trend graphs, are added to your online profile at www.dustcheck.com
