

## 'Safe Change' Principle

Remove retaining bar & end cover.

Pull out disposable bag & remove end cap

3

Remove filter cartridge & double tie bag. Cut between ties & discard dirty cartridge. Ensure end cap is positioned as shown. 4

Introduce new cartridge in new bag.

Remove end of original bag. Loosely position end cap.

Remove all air from bag & push into spigot.
Fully tighten end cap.
Pull bag back to outer swage position.
Replace end cover & retaining bar.
